

Election Address – Clive Poyner

Having now spent 4 years on the England Athletics Board in the position of members elected Director, I have learnt a considerable amount regarding our sport and its associated management.

I have applied to stand again for a further 4 years in the hope that my learnings can be used to influence decisions made that affect the direction and compliance of our sport.

In particular my focus will be on governance with its associated consultative processes coupled with a need for consistency across the sport's many procedures.

Further to this, I intend to maintain the focus already in place for aiding coach, official and club administration volunteers' recruitment and retention, whilst maintaining the highest standards for an inclusive approach in a safe environment.

And finally, at all times I will look to support and develop ideas for opportunities to increase income as this is a major constraint to the enhancement and sustainability of our sport.
